HARTENBERG
WINE ESTATE

The Pebbles Project and Hartenberg Wine Estate are proud to announce the opening of their new After-school club and crèche facility.

The partnership between Pebbles and Hartenberg started early in 2008 and the opening of the new facility is just the beginning of an exciting and rewarding community development project.

The After-school club will cater for approximately 15 children aged 6 – 16 years, who will receive supervised homework sessions, art classes, games days, sport activities and educational trips.

The upgraded crèche facility will offer a balanced early childhood development programme for children aged 2 – 6 years.

Pebbles will provide staff training, educational resources and educational trips, as well as parent workshops on a range of themes, including money management, alcohol abuse issues and positive parenting.

Both the crèche and the after-school club will benefit from the additional services of a special needs teacher to assist with training and support any children with learning difficulties.

“We were very excited to be invited by Hartenberg to support their efforts on the farm and to see that more and more farms are truly committed to uplifting their farm-worker communities and the education of the children,” said Sophia Warner, director of Pebbles.
